

Testing Notice- Blood Spill Exam: Topeka 12/26/2018

Thank you to those that notified the Board office and the Board Chair, David Yocum expressing concern regarding the recent blood spill exam testing scores at the Topeka testing site. The Board requested an investigation of the scores and found that the changes set to go into effect January 1st for the exam were prematurely being implemented by the Topeka testing site.

The following notice has been provided to the Board by the testing company:

“There has been a miscalculation in the scoring of blood spill examinations taken at the Topeka testing site from November 1 - December 21, 2018. For quality assurance, all failed blood spill examinations taken in Topeka during that period are being reviewed and rescored. All candidates affected by the review will receive an email notification once the updated score is in their account. Please keep in mind, all scores did not change from failing to passing as a result of this review. If a score was updated from failing to passing, any further funds paid for testing will be refunded to that candidate. We apologize for any inconvenience this may cause.”
