Robert M. Wood, D.D.S. )  
License No. 6079 )

Case No. 06-95

**AGENCY ORDER**

Robert M. Wood, D.D.S. ("Wood") has a Level II Anesthesia Permit, identified as Permit Number II-016, which was issued by the Kansas Dental Board (the "Board") on June 24, 2005. After considering the matters contained in the Board's files, the results of an investigation, and other matters brought to the Board's attention, the Board's Investigation Member enters the following agency order.

**I. FINDINGS OF FACT**

1. The Board previously issued Wood License Number 6079, which entitled him to practice dentistry in the State of Kansas.
2. On June 24, 2005, the Board issued Wood a Level II Anesthesia Permit, identified as Permit Number II-016.
3. On or about August 9, 2006, an incident occurred whereby controlled substances from Wood's office were located at the residence of a deceased individual (the "Incident").
4. As a result of the Incident, on or about August 14, 2006, the Drug Enforcement Agency ("DEA") performed an investigation of Wood's inventory and record-keeping of controlled substances. The DEA determined that Wood failed to maintain an adequate controlled substances inventory, maintain adequate records, and properly safeguard and protect controlled substances in his possession.
5. As a result of the DEA's investigation into Wood's inventory and record-keeping of controlled substances, Wood voluntarily surrendered his DEA registration, number

BW3339783. Wood's controlled substances were subsequently relinquished or destroyed by the DEA.

6. With the surrender of his DEA registration, Wood was prohibited from ordering, prescribing, or administering any controlled substances.

7. Following the DEA's investigation that occurred on or about August 14, 2006, the Board received a complaint from DEA Investigator Martin Redd (the "Complaint").

8. By letter dated October 10, 2006, Wood informed the Board that he did "not have controlled medications in [his] office" nor did he "subscribe [sic] medications."

9. On or about November 1, 2006, the DEA performed another inspection of Wood's office due to a new DEA application that he submitted. The DEA found that Wood continued to possess and dispense controlled substances, despite having voluntarily surrendered his DEA registration on or about August 14, 2006.

10. The DEA also found that Lortab had been dispensed and not properly recorded in a patient's chart.

11. An investigation of the Complaint has been conducted, and as a result, the Board's Investigation Member has determined that probable cause exists to conclude that:

A. At the time of the Incident, Wood failed to maintain an adequate controlled substances inventory;

B. At the time of the Incident, Wood failed to maintain adequate records;

C. At the time of the Incident, Wood failed to properly safeguard and protect controlled substances in his possession;

D. After voluntarily surrendering his DEA registration, Wood continued to possess and dispense controlled substances;
