

MULTI-HAZARD EMERGENCY PLANNING FOR SCHOOLS

This course will provide participants with the basic information and tools needed to develop effective plans for the wide array of potential emergencies that schools may face.

Participants completing the course will be able to explain the importance of effective planning to others and lead individuals in their schools and community through the process of developing an effective multi-hazard program.

This course will:

- Describe emergency management operations, roles and duties;
- Explain how to assess potential hazards that schools may face;
- Explain how to develop and test an Emergency Operations Plan that addresses all potential hazards.

G362
June 10-11, 2008
Leavenworth,
Kansas

Primary Audience:

This course is designed for school administrators, principals, and first responders. However, anyone with a personal or professional interest in school preparedness is welcome to participate. Teachers, students, bus drivers, volunteers, and parents alike will find useful information in this course.
